2nd November 2026

Dear Year 11,

I wanted to take the opportunity to say that we all hope that you had a wonderful half term and that you feel well prepared and looking forward to our mock exams starting this week.

Our last year 11 cohort in November gained 221 grades in total between their Summer exams and mock exams in November - this included all students in the year group - our collective target this year is 250 grades which we absolutely believe is achievable. Almost all students gained grades in at least 3 subjects.

All students in year 11 should know how many marks are needed in each subject to achieve the next grade. Teachers have also shared with students strategies to achieve these additional marks. There will be rewards for students gaining grades in a number of subjects including a paid trip to Royal Nawaab.

In our revision conference before half term strategies were shared and key important points to consider including;

Revise the most difficult topics and the areas which you find most difficult to have any impact.

Don't procrastinate or allow yourself to be distracted by pets, phones, music or TV.
Complete tasks which ensure that you must engage and retrieve the information to be successful for example do not waste time copying information. Test yourself with this.
Practise, Practice, Practice exam questions.

Be prepared - if you are prepared you will be more confident. You can only do your best! You will know whether you have tried your best and you can not deceive yourself!

Remember all staff are here to support you every step of the way! We have any revision materials to share with you should you need them. We are here to offer any support or answer any questions.

Myself and all staff are so excited to see you show off everything that you have learnt since our last mock series.

We are all really looking forward to seeing you back in school with us tomorrow.

Mrs McCann
